214.5 PUBLIC HEARING - HELD - AN APPEAL TO THE PLANNING COMMISSION=S DENIAL OF SPECIAL USE PERMIT NO. 837 - RESOLUTION NO. 99-131 ADOPTED. The City Clerk announced that the next scheduled matter was a public hearing to consider an appeal to the Planning Commission=s Denial of Special Use Permit No. 837 for the sale of beer and wine in an existing 900 square-foot grocery store located at 3547 West Imperial Highway, that notice of this hearing has been given in the time, form and manner as required by law, the affidavit was on file and the complete file of the Planning Commission was present and that no communication has been received on the matter.

The City Administrative Officer presented staff report dated November 2, 1999 submitting background information.

Mayor Dorn ordered the staff report dated November 2, 1999 received and filed.

Eddie Ikemefuna, Associate Planner, commented that the Planning Commission denied the permit because of an over concentration of establishments selling beer and wine in the area. He also noted that the State Alcohol Beverage Control Board, indicated that there is a statewide moratorium in effect for local jurisdictions having a concentration of licenses greater than one license per 2,500 people and Inglewood's concentration is approximately one license per 780 people.

Mayor Dorn inquired if there were any persons present who wished to address the City Council on this matter.

Annie Whitehead, 3356-3358 Imperial commented that there are enough beer and liquor establishments in that two or three block area and another is not needed near a school and requested permit be denied.

Lynell Von Rettberg, 3548 W. 113th Street, commented that there isn't a need for additional liquor stores in that neighborhood and pointed out that there are already problems and requested permit be denied.

Sandra Roberts commented that efforts are being made to clean up Imperial Highway between Crenshaw and Prairie noting that allowing such a permit would delay those efforts. In addition, she commented that the area is overrun with drug addicts, prostitutes and requested permit be denied.

Jesus Huerta, through translation of Diane Sambrano, commented that he was the owner of the store and questioned why the City did not wish to grant him a permit. He further commented that he had a business close by and had a permit to sell at that location and had previously had a license for 9 years.

Diane Sambrano commented that she attended the Planning Commission meeting and there were several people who said that they were opposed to more liquor establishments. She pointed out that the applicant did not understand the process and the City needs to educate the constituents through more outreach.

Mr. Munoz, 2520 112th Street, spoke in opposition to the sale of beer and wine because of school children.

Council Member Kirkley commented that he apologized to Mr. Huerta and noted that a certain standard of living must be upheld. Finally, he commented that this was not the time to support this kind of business and he could not support the permit.

Council Member Fernandez commented that he felt that the applicant wanted to operate a business and make a living but noted that the area was one of the highest crime areas in the City and a focal point. He commented that he supported his colleague 100 per cent and that maybe Mr. Huerta could meet with staff and look at other avenues. Finally, he noted that Council must stand together on the issue.

Council Member Dunlap expressed her concern for the applicant who attended the Planning Commission meeting where staff could communicate with him and referred to the absence of a Spanish translator. She commented that this was a serious affront to those who don't speak English. In addition, she commented that the applicant paid \$300 to come before Council and she did not feel that he had a true understanding of the matter. For the record, she commented that she has never supported the sell of beer and wine, that she felt that the applicant's money was taken under false pretenses and she was hopeful the City might consider refunding him his money.

Mayor Dorn commented that the appeal process is a process individuals can take advantage of by paying \$300, that he had no problem with returning the individual's money and he supported his colleague in this matter. He further commented that the area needed a lot of work and that can't be done by allowing more beer and wine. Finally, he commented that though Council is against this project, there may be other projects in that same area, the agency can assist the applicant with.

Council Member Horton commented that whenever statements that taxpayers or business persons have taken certain actions under false pretenses, that implies that staff has misled the taxpayer. He further commented that he would be supportive of waiving \$300. He inquired what communication, if any, has taken place with the owner and if staff had any knowledge of the applicant=s ability to speak English.

The City Administrator commented that the same process that has been followed in the past was followed with this applicant but noted that it could be changed if Council wished it to be.

Eddie Ikemefuna, Associate Planner, commented that the applicant=s daughter was present at the hearing and she translated for him. Additionally, he commented that he explained to the daughter that her father was free to apply for an appeal if he is not happy with the decision of the Planning Commission.

No other persons wishing to address the City Council on this matter, Mayor Dorn ordered the public hearing closed at the hour of 7:22 p.m.

It was moved by Mayor Dorn and seconded by Council Member Fernandez that Resolution No. 99-131, entitled:

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF INGLEWOOD,
CALIFORNIA UPHOLDING THE PLANNING COMMISSION=S DENIAL OF A
CERTAIN SPECIAL USE PERMIT TO JESUS PRECIADO HUERTA TO ALLOW

PROPERTY AT 3547 WEST IMPERIAL HIGHWAY**

be adopted. The motion was carried by the following roll call vote:

Ayes: Council Members Horton, Dunlap, Fernandez, Kirkley and Mayor Dorn;

203 PUBLIC HEARING HELD - DOWNTOWN TRANSIT CENTER PROPOSAL.

171 The City Clerk announced that the next scheduled matter was a public hearing to receive public comments about a concept plan for a bus transit center in downtown Inglewood proposed to be located on Kelso Street between Market Street and La Brea Avenue, that notices for this hearing was posted and mailed to over 600 property owners and businesses in the downtown area and no communications were received.

Joseph Rouzan, the City Administrative Officer presented staff report dated November 2, 1999 submitting background information.

Mayor Dorn ordered the staff report dated November 2, 1999 received and filed.

Bill Barnett, Associate Planner, reviewed the proposed concept plan for the bus transit center in downtown Inglewood, referred to charts on display and pointed out that the plan would improve access and provide more convenience for riders. Additionally, he commented that the purpose of the proposed plan is to improve bus service and no other bus transportation will be stopped.

Mayor Dorn inquired if there were any persons present who wished to address the City Council on this matter.

Ron Murray, First Inglewood Christian Church, commented that his church was in agreement that this proposed plan would be favorable to the church but expressed his concern regarding the impact of the access to the property. In addition, he commented that as far as land swap, his church was in favor but concerned that it will cost them some money. He also commented that staff stated that the property would be used for parking but the church would want to use the property for parking, classes or play areas as well.

Bill Barnett commented that the staff report comments that the land will be used for parking but indicated that it will probably be used for parking or a play area.

Frederick Davis commented that there are signs across the street from Pacific Bell that refer to Pacific Bell ownership of the property and noted that if it is not true, then the signs should not be there. He also commented that a bus problem exists on La Brea, north and south bound and that perhaps the plan should be re-thought.

Jim Birchsneider, Chairman of the Board, Inglewood Christian School, commented that the new proposal is a win-win situation for the church and school because the property will be of use to the school and City.

No other persons wishing to address the City Council on this matter, Mayor Dorn ordered the public hearing closed at the hour of 7:46 p.m.

Council Member Fernandez commented that he would like for the item to be held over so that research could be done regarding surrounding properties. He also questioned what would happen with the alley.

Bill Barnett commented that the alley would remain open.

Council Member Fernandez commented that he did not think it to be the best situation to keep the alley open to vehicles and needed to discuss this with staff and that he would like to have a contained environment. Finally, he commented that he would like to hold the matter over for two weeks and discuss it with staff along with other concerns. He noted that he did not have a problem with the land or swap.

Council Member Kirkley commented that it appeared that if Kelso was closed, persons would take a short cut down Kelso to that alley driving past the school parking causing a serious consideration. He commented that he supported Council Member Fernandez's request to hold the matter over to mitigate the problems. Additionally, he noted increased traffic caused by persons picking up people from the bus stop and commented that the use of alleys as thoroughfares is a concern.

Council Member Dunlap expressed her support of her colleague to hold over the matter but noted a concern that if Kelso is closed, streets will be impacted. She commented that she supported a transit center but not in that area. She inquired how many buses currently travel on downtown Market Street and commented that the focus should be developing a center that will create foot traffic. Finally, she inquired if staff will be presenting a traffic study.

Bill Barnett commented that one bus currently travels on downtown Market Street.

Council Member Horton inquired if a study has been done to evaluate the flow of traffic and how many businesses were notified of the public hearing. He also inquired if input had been received from businesses.

Bill Barnett commented that he had been working with Mr. McFadden from the Church and noted that the only use of the alley will be church and school business. In addition, he commented that 200 property owners and 400 businesses were notified and he had received input from some of the businesses.

Council Member Horton commented that he was supportive of pulling the matter and allowing Council Member Fernandez to have his concerns addressed.

Joseph Rouzan, the City Administrator commented that staff has been dealing with this matter since 1997, that Council approved the overall concept in January to go forward and that it was incumbent that Council let staff know what they are thinking before arriving at this point. He requested Council to inform staff of their concerns and noted that the goal of the plan is to provide a good viable transit program so that people can come and shop.

Mayor Dorn commented that he had spoken with legislators in Washington, D. C. to acquire the money for this proposed plan and noted that it would be most unfortunate to

lose it. He expressed his support of his colleague of a short continuance to ask questions and that there would be a move to resolve the issues and concerns would be handled expeditiously. Finally, he commented that he wasn't concerned with where the center is located but with losing the money for the project.

Council Member Fernandez commented that he had concerns regarding property owners and who would benefit from the proposed plan.

Mayor Dorn ordered the matter tabled until November 16, 1999.
